Easter Egg Hunt

Bill Overstreet Park, April 3-4, 2021

Join in a fun family Easter Egg Hunt! To participate, visit the Bill Overstreet Park on Easter weekend and bring with you a pen and paper (or a camera), as you will need some way to identify AND document the different eggs included in the Easter Egg Hunt. Have fun searching for the eggs you see below, and each time you find one make a note of the corresponding letter code and the number you see on the sign next to it. ...and please leave the egg in place for the next Easter Egg hunter to find.

If you find 6 or more of the hidden eggs you may enter the drawing for an Eggtastic prize. Just fill out and mail in the entry form at the end of this document.

No donation is necessary to participate in the Easter Egg Hunt, enter the drawing, or win a prize; however, donations are welcome and will help us build a new performing arts facility for Juneau. Thank you for your support, and happy hunting!

The History of Easter Eggs

Why are eggs associated with Easter?

Eggs have been symbols of fertility throughout history and across cultures. In medieval Europe, eggs were prohibited during the fast of Lent, so children were sometimes given eggs as a special treat before Lent began. A common practice in England was for children to go door to door begging for eggs on the Saturday before Lent began. As a special dish, eggs would probably have been decorated as part of the Easter celebrations. Eggs boiled with some flowers change their color, bringing the spring into the homes, and some cultures over time added the custom of decorating the eggs.

Where did the Easter Bunny come from?

Reportedly, the Easter Bunny was introduced to America in the 1700s by German settlers who brought their tradition of an egg-laying hare called the "Osterhase" or "Oschter Haws." Children made nests in which the rabbit could lay its colored eggs. Sometimes they made nests in their bonnets or their caps. Over the years, decorated baskets replaced the nests, and the Easter rabbit began to deliver chocolates and other gifts as well as eggs. Children sometimes leave carrots for the bunny in case he has gotten tired and hungry from hopping!

Why are the eggs brought by a rabbit instead of a chicken?

That's a good question! Maybe it is because both rabbits and eggs are associated with fertility, or maybe bunnies are cuter than chickens? In some other countries there are different animals that bring eggs. If you live in Australia you might wait for the Easter Bilby, or in Switzerland, the Easter Cuckoo! In some parts of Germany, the spring holiday is greeted by the Easter Fox, or the Easter Rooster!
